

Projector Set-up Guide – Apple

(if page #1 doesn't work)

Locate System Preferences

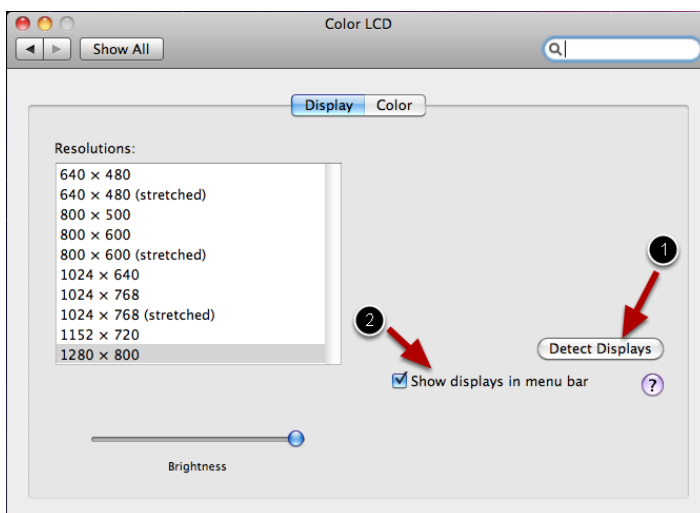

Locate System Preferences and open.

Open the Displays Menu

Final Step

1. Click the Detect Displays button, which should bring up
2. For future ease, you may check the box for to add the display function in the menu bar. It will be located at the top of the screen. When you click on it, there will be a menu that drops for selection.
